All India Institute of Medical Sciences, Patna**

BJAPSCON 2019

Patron-in-chief

Director

Dear colleagues,

I take great pride in welcoming all the Plastic surgeons, students and all attendees of the 9th Annual conference of Bihar & Jharkhand Association of Plastic Surgeons. Microsurgery is a rapidly developing subspeciality of plastic surgery and its skills need to be promoted and spread even to the remote areas of our state. I am sure this will help a large number of suffering patients in need of our care and be a huge contribution to society.

AIIMS Patna is already developing at a fast pace catering to a huge number of patients with a potential to be a leader on its own in the department of healthcare, I am confident that the 9th BJAPSCON being conducted at our institute will further elevate the standards of practice and help in the development of quality healthcare being delivered by the department of Burns & Plastic Surgery.

In this context, I welcome you all to the ancient city of Patliputra of Ashoka , The Great.

Please mark your dates and give us a chance to be your host.

Best wishes

Dr. Prabhat K. Singh
