Here is a fantastic opportunity to stimulate your clinical practice and enhance your career. This workshop provides clinicians with intensive tuition in an integrated and thoroughly modern, evidence based approach to orthopaedic manual therapy of the spine, pelvis, lower limb and shoulder girdle complex.

This is a unique opportunity to be educated by our internationally respected team of clinical educators led by Specialist Musculoskeletal Physiotherapists Dr Deepak Capri.

The primary aim of the programme is to integrate joint, muscle and neural tissue based manual therapy concepts to provide a more functional and comprehensive approach to the management of a range of Neuromusculoskeletal conditions. The syllabus is a biopsychosocial approach, which integrates a range of manual therapy concepts.

We believe this workshop will be a memorable and meaningful event, bringing together clinicians and Physiologists from all over India and contributing to a better understanding of changes and challenges faced by the modern world and our discipline, as well as the global responsibility we all share. We look forward to welcoming you to AIIMS Patna.
